ROI

Mission: Possible

PEGASYSTEMS

Mission

Your mission, should you choose to accept it, is to gain immediate and measurable ROI.

Impossible? Not with Pegasystems. Pegasystems' Healthcare applications, including our PegaCLAIMS Exception Processing and PegaMEMBER Services products, have been delivering ROI to Healthcare and Insurance companies around the globe.

The PegaCLAIMS Exception Management product is delivering significant benefits to its customers. One organization increased throughput by 40% within the first week of production. Another organization realized a 98% reduction in claims backlog with Pegasystems.

And, with more than 18 years experience delivering technical solutions based on Pegasystems' patented rules engine, you know your application won't self-destruct.

To accept your mission, visit Pegasystems at the 2002 Claims and Customer Service Conference, May 14 - 17th, Amelia Island Plantation, Amelia Island, FL.

¡Mission: Possible!
